## **College of Radiology Subsidised Mammogram 2006 At IIUM Breast Centre, Kuantan**

The College of Radiology is again organizing a Subsidised Mammogram Program in the east coast in the month of October 2006. The mammogram provider for this is at the IIUM Breast Centre, International Islamic University Malaysia, Jalan Hospital, Kuantan.

Fifty places have been allocated for Pahang, another 50 for Terengganu and 50 for Johore (north eastern region). Eligible women should be above 40 years and have never had a mammogram before. Those with a family history of breast cancer and single mothers who fall into this category are particularly targeted.

Each woman will be charged RM30 for the mammogram, and funds raised by the College of Radiology, Academy of Medicine will subsidise the rest of the cost for the value added mammograms. (Additional mammographic views and supplementary ultrasound will be provided where needed at no extra cost to the participant).

Mammogram appointments can be made directly at the Centre by calling 09-5163799. Appointments are on a first-come-first-served basis and women must satisfy criteria.
